

# Science Says

by Brod Bagert

Everybody's wishin'  
and everybody's hopin'  
and everybody's waitin' until  
everything is open.

We'll be going to the playground!  
We'll be going to the zoo!  
We'll be going to the movies!  
Oh-so many things to do!

It's gonna be so wonderful.  
It's gonna be so great.  
It's gonna be a ton of fun,  
and we can hardly wait.

But "wait" is what the scientists  
all say we have to do.  
When science says it's safe to go,  
that's when we'll know it's true.

So we're wishin' and we're waitin'  
till the science sets us free,  
and the longer everybody waits  
the better it will be.
